SUMMERY:

Self-taught web developer with experience on designing, developing, and implementing MERN application with react, redux, material-UI, bootstrap as frontend, and backend building with Node.js, express, MongoDB, and Sanity. Seeking to a junior front-end or intern developer position to provide my experience and skill sets with Tech company.

PROJECTS:

1. **MERN Stack Web Application: To-Do-List**
   - Building a To Do List web application to demonstrate my coding skill and ability to build a reliable MERN project independently. Frontend made with Bootstrap 5, HTML, CSS, React and Redux. Building REST API with CRUD operations using Node, Express and MongoDB. I also dockerized my project and successfully upload to Google Cloud.
   - My project on Google Cloud: to-do-list-377512.el.r.appspot.com/
   - The Web App code on GitHub: chenyibo406/MERN-project-to-do-list

2. **MERN Stack Web Application: Social Media Web Application.**
   - Building a MERN Social Media Web Application as the tutorial guide to review the knowledge already known. Frontend made with react, react-dom, react-router-dom, Tailwind, HTML and CSS. Building REST API was built with Node, Express and Sanity.
   - My project on Google Cloud: share-me-370102.de.r.appspot.com/
   - The Web App code on GitHub: chenyibo406/react-app-shareme-ac

3. **MERN Stack Web Application: Memories Web Application.**
   - Building a Memories Web Application to demonstrate my ability to build a MERN project based on self-learn. Front-end made with Material-UI, React, Redux, HTML, and CSS. Created a Backend API was built with Nodejs, Express and MongoDB.
   - My project on Google Cloud: memories-projects-375207.uc.r.appspot.com/
   - The Web App code on GitHub: chenyibo406/memories-project-review

4. **Ecommerce Website.**
   - Building a responsive Ecommerce website based on JAVASCRIPT, HTML and CSS and Bootstrap to enhance my knowledge of fundamental web developer skill set. I upload my code on GitHub Page: chenyibo406.github.io/demo-ecommerce-website-ac

5. **Other Projects on GitHub.**
   - I continue to build more projects on GitHub to prove that I am diligent to sharpen my coding skill sets as web developer and aim to be expert.

SKILL

- REACT
- REDUX
- JAVASCRIPT
- CSS
- HTML
- TAIWIND
- BOOTSTRAP
- MATERIAL UI
- UI/UX
- NODEJS
- EXPRESS
- MONGODB
- SANITY
- Git
- NEXTJS
- SQL

EDUCATION

09.2009-06.2013   Material Science, Bachelor's Degree, Tianjin University of Technology
02.2023-Current   Online bootcamp, Frontend Developer, SCRIMBA

CERTIFICATION

- **SCRIMBA**: The Frontend Developer Career Path; JAVASCRIPT; UI/UX
- **FREECODECAMP**: Responsive Web Design; Front End Libraries; APIs and Microservices; Full-Stack;
- **LINKEDIN**: Data Scientists; SEO; Become a Project Manager (certificate of completion);
- **FRONTIER EDUCATION**: Microsoft Excel Professional;
- **EF**: English proficiency C1.

INTEREST

- Body-training; Reading; Writing
